DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Tung on 08/19/2003.

The application has been amended as follows:

In the **Title**:

Substitute the title for "SEMICONDUCTOR STRUCTURE HAVING IN-SITU FORMED UNIT RESISTORS "

In the **Claims**:

Cancel claims 16-33

The following is an examiner's statement of reasons for allowance: See that the claims recite first and second pluralities of conductive elements, vias and their resistivity, and their specific electrical communication with other structural limitations. These in combination with all other specific language recited in the claims is neither

obvious over nor anticipated by the prior art of record, which fails to either alone or in combination anticipate the invention as claimed. Therefore, the Application as amended above is allowable.

The prior art disclosing subject matter commensurate to Applicant's invention includes McInick et al. (Fig. 18, Cols. 8+) which discloses an electronic structure having an in-situ formed resistor in electrical communication with a capacitor comprising a unit resistor formed by a first conductive element 206 and a second conductive element situated in different levels in said electronic structure connected therein- between by an electrically resistive via; and a capacitor formed in electrical communication with said resistor.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
